

Christmas Events 2010

A great selection of team building events for your corporate Christmas party, conference or team meetings.

CHRISTMAS TREASURE HUNT – wrapped up against the elements, teams compete as they explore the search area for Yuletide clues - cryptic, photographic or GPS clues. Search areas can include your conference hotel or most historical and/or beautiful cities and sites such as London, Stratford, Cambridge, Bath and others. **Teams eventually uncover enough clues to open the Treasure Box and share the beautifully wrapped presents for everyone.** This is a scenic and rewarding opportunity to bring teams together for the festive season. **See also our London, Prague and Paris Treasure Hunts.**

WINE TASTING events are fun team-based events that provide a **great lead-in to a celebratory Christmas meal or as an ice breaker for a Christmas conference.** Starting with a light-hearted introduction to the art of wine tasting and then followed by “rounds” of matching wines to prices, countries, descriptions etc. each group has a limited amount of time to taste and decide upon their answers.

PUB GAMES – An ideal fun and social team event for a conference or as the lead-in or end to an evening meal. Teams can try and test their skills with all the well known traditional pubs games such as **Giant Shove Ha’penny, Skittle Alley, Darts & Quoits**, as well some different games including **Ring the Bull** and **Aunt Sally**. Teams need to organise themselves as the race is on to score as many points, strikes, or ends as possible before the end of each round.

WHO KILLED DR X? What better way to celebrate Christmas with a traditional board game with a twist! **This is “Cluedo”, a murder mystery with a difference.** Played in detective teams with an oversize game-board and dice, teams move their counters around the board from room to room. Upon landing in a room, the sleuthing can begin! Your team picks up a search warrant and sets off to seek clues and evidence. Evidence and clues are gathered piece-by-piece. Primarily a fun event, “Who Killed Dr X” will get your participants working closely together.
