

## Farm Challenge

Spring, summer and autumn events don't come much better than this fantastic new event! Created by Eventus at a superb venue near Lambourn, Berkshire!

Our Farm Challenge Event is really different – don't worry we're not going to ask you to "muck out" or milk the dairy herd but we might challenge your teams to make a scarecrow or a coat for a baby lamb or even "ring the bull". You might also be asked to check on and count the sheep in a field or, harder still, the chicks in the hatchery - there were 434 last we checked! Not to mention "wanging" a few wellies.

Complimenting this unique event is our venue – Sheepdrove Eco Conference Centre – an organic farm located in the Berkshire Downs 15 minutes from Junction 14 (Hungerford) on the M4. It offers superb facilities for a memorable team event plus some truly mouth-watering organic food!

Farm Challenge is based around a series of farm-based team challenges that will test initiative, teamwork and team problem solving abilities. Participants enjoy the aspect that each team selects those challenges that best match with their perceived strengths.

This activity is ideal for a team that is looking for something a little different. It also ties in well with a really interesting venue - sustainable farming techniques are fully practiced.

Fast moving, different and pacy – your team is sure to enjoy this novel half day event and then savour the delights of chef's organic lunch – you won't want to go home!

- 12 – 100 participants
- Outdoors
- Competitive
- Half-day activity
- Great farming fun!

*Everything about the Farm Challenge was excellent; from the contact with Eventus prior to our day to the venue at Sheepdrove to the event itself. The Farm Challenge was a 10 out of 10, exactly what we asked for!*

*Claire L - Vodafone*

### Team Learning:

- Valuing differences in colleagues
- Problem-solving in teams
- Collaborating effectively
- Reviewing performance to improve
