

Lawn Games

This activity will get you in the mood for summer...long warm afternoons and evenings. Just about the perfect activity if you want something fun and sociable.

OK - we can't guarantee the sunshine but we can guarantee some great lawn games. We'll bring *Splat the Rat*, *Aunt Sally*, *Lawn Darts*, *Lawn Skittles*, *Golf Games*, *Space Hoppers*, and a whole host more. Lawn games are easy to pick-up but tricky to master. And, watch out, they are incredibly addictive. We usually have trouble getting guests to hand back the skittles, darts, clubs, cheeses, quoits and discs at the end-of-play!

We can use two formats. The more structured format involves dividing your guests into teams and then rotating around the lawn games picking up points and bonuses on the way, with prizes for all the top-performers. This is a great format if you want a really competitive event that fully engages everyone.

However, if you prefer your guests to be free to wander and try their hand at anything that takes their fancy then the "chill-out" format is the one for you. Your guests can create ad-hoc teams, or challenge a colleague to a game, or go around with friends. Our staff will be there to add the fun, to arrange some on-the-spot contests and prizes. This is a great format if you prefer a relaxed pace, less structure and the opportunity for guests to do as much or as little as they choose.

Add in some refreshing drinks, plenty of bunting and some beautiful surroundings (including at least a little lawn!) and you have the perfect afternoon's activity for a super chilled-out corporate event

- 12 – 120 participants
- Outdoors on the lawn
- Chilled-out fun!
- 2 hours (flexible)
- Perfect for summer

We were very pleased with the organisation in the run up to the day. At the Lawn Games event, Jon and Phil were excellent and really engaged with the participants. I wouldn't have changed a thing!
Tim O - Nottingham Business School

Key Features:

- A pretty lawn is ideal
- Competitive or "Chilled" format
- Great for family fun days
