

## London Treasure Hunt

London is a stimulating place to visit anytime of the year, come rain, wind or shine! With ancient history blending into the latest in design, London is a perfect location to compete in a unique and scenic Treasure Hunt. Whether your organisation is based in London or your team is looking for a change of scenery, our Treasure Hunt activity offers a chance to see London with new eyes.

Distinguished landmarks such as The Tower of London, The Globe Theatre and St Paul's Cathedral stand alongside the new and innovative designs of the Millennium Bridge, The London Eye and the 'Gherkin' in this competitive event.

Your teams will decide the best way to complete the Treasure Hunt utilising photo locations, unraveling team challenges and finding GPS waypoints that will enable them to crack the code and claim their prize.

The London Treasure Hunt is easily adapted around the sights and sounds found along the vibrant and interesting South Bank, to the peace and tranquillity of the Hampton Court Palace Gardens. One great aspect about the Treasure Hunt is that it can be started in one place and finished at another location of your choosing! It can also start and finish from the same place: your conference venue, a suitable pub, even your offices!

Easily accessible from anywhere in the UK and overseas, London boasts one of the most exciting and cosmopolitan nightlives in the world. If you decide to stay overnight we can recommend hotels in the heart of the city, or appropriate venues in which to kick start this event!

- 5 – 200 participants
- Can take place in many popular and scenic London locations!
- Half-day activity

*The London Treasure Hunt was perfectly organised, great fun and I had great feedback from the team members! We were very happy that Eventus could deal with our last-minute changes and the event itself really put smiles on faces!*
